*Your word is truth. JOHN 17:17*

Kathy is passionate about people having access to God's Word and is saddened that so many Indigenous Australians still don't have the Scriptures in a language they easily understand. God has given Kathy a love of languages and she has now completed her linguistic and theological studies.

Kathy will live in the Northern Territory to serve Indigenous Australians through Bible translation. She will be working on the translation of the Plain English Version (PEV), supporting Aboriginal Bible translators and training to be a translation consultant. The PEV

is an English translation of the Bible designed for people who speak an Aboriginal language as their mother-tongue. It is used by those who do not yet have the Scriptures in their own language, or who meet with Christians from other language groups. In order to support the Aboriginal translators, Kathy will spend some time living in a community, learning an Aboriginal language.

Please be praying for wisdom and that God will prepare a team of Indigenous Christians for her to serve alongside.

**Kathy Dadd** is committed to being part of the team helping people gain greater access to God's Word. You can be a part of this team as you partner with her through prayer, financial support and encouragement.
